**Some closing comments about Bloodhounds**... We LOVE them! They are amazing dogs (but not for everyone)! They bring so much joy to our lives! But they are also big dogs, that drool (mainly when they eat, drink or exercise). They are smart and therefore they can be stubborn. They absolutely need good training & good leadership. They are silly, but they are also sensitive to harsh corrections. The more time & attention you give your dog the better dog citizen your dog will be!

**Some closing comments about Our Puppies:** Our goal for each of our puppies is first to be loved totally by their forever family! We want the outstanding puppies to be shown (at least to their championship). We hope that our smartest dogs, with the best noses, to go to a working home (police or search/rescue), to do what the breed is meant to do. We also want all our puppy buyers to become friends and share the silly antics of their puppies and send photos (breeders are puppy grandparents)!

**Please be Patient!** We do ask for your patience, for our planned bloodhound breeding, then for puppies to arrive safe and healthy; then lastly for them to grow to be about 10 weeks old and be ready to go to their new homes for their new adventures!
